The **T420** is a great boat for all the family. It is versatile and very fun to sail for both beginner and expert alike. Designed for beach launching and a crew of up to 3 people. This is a single handed dinghy but able to take on the larger crew for fun and training. The boat is very modern in concept with a windsurf style rig that keeps the controls to a minimum, the wishbone boom is higher than the conventional boom and allows for easy moving about the boat in manouvers. The boat is lightweight yet strong and suitable for all.
